

# *Never and Always*

I'll never leave you  
I'll never leave you  
You're the sun that lights my day  
You're the one who brights my gray

I'll never hurt you  
I'll never hurt you  
I'll take a stormy day at home  
Over sunny days alone, I'm coming home

And I need you (Never and always)  
And I need you (Never and always)  
And I need you (Never and always)  
And I need you (Never and always)

I never knew what life could be  
You're the one I love  
I never saw the sights I see  
You're the one I love

I'll always love you  
I'll always love you  
You're the heart that beats in time  
You're the soul who sings with mine

And I need you (Never and always)  
And I need you (Never and always)  
And I need you (Never and always)  
And I need you (Never and always)
