

# *Tonight We Will Live Forever*

Your blue eyes shade gray  
A lion never tamed  
The years fall away  
But it's a cold, cold flame

We talk about the weather  
But tell a deeper truth  
We laugh and cry together  
Surprised to find our youth

I love when you move that way  
A kiss is just a dance from never  
Tomorrow's another day  
Tonight we will live forever  
Yeah tonight we will live forever

We talk ourselves to silence  
Then slowly build a fire  
Undressing cold defiance  
Melt it with desire

I love when you move that way  
A kiss is just a dance from never  
Tomorrow's another day  
Tonight we will live forever  
Yeah tonight we will live forever

See you  
Touch you  
Feel you  
Love you  
Warm you  
Be you  
We'll fly on broken wings  
We'll dance when we cut the strings

I love when you move that way  
A kiss is just a dance from never  
Tomorrow's another day  
Tonight we will live forever  
Yeah tonight we will live forever  
Live Forever  
In your arms I will live forever  
Live Forever  
Tonight we will live forever
